BRYANT OWSLEY COWAN, generally known as B. O. Cowan, was born in 1850 on a farm at New Point, near Oregon, Holt County, Missouri. His father, J. G. Cowan, was a Shorthorn breeder, and B. O., after graduating from Princeton, continued in the work of breeding pedigreed Shorthorn cattle. Through this activity he became employed by the American Shorthorn Breeders Association and removed to Springfield, Illinois, and shortly thereafter, in 1903, to the Association's home office in Chicago as assistant secretary. In the following years he was in constant demand as a judge of pedigreed cattle at fairs and exhibitions country wide. Stricken with paralysis in 1910, he never recovered sufficiently to continue his work with the association. He removed to Santa Monica, California, in the winter of 1912 and passed away there in 1929.

B. O. COWAN, Santa Monica, California, former assistant secretary of the American Shorthorn Breeders' Association, to whom the Shorthorn fraternity is indebted for the informing and historical value of the contents of this volume.

INTRODUCTORY

This record of prize winners was prepared at the request of the American Shorthorn Breeders' Association as conveyed to me by its efficient Secretary. While this is a record of the more prominent prize winners during the last twenty years and makes no claim to being a history of Shorthorns, I think it is not inappropriate to preface it with a very brief statement which may serve as an historical setting. This statement has been taken, in part at least, from the pamphlet, "Shorthorn Cattle in Missouri," which the writer prepared in 1914 for the Missouri State Board of Agriculture.

Shorthorn cattle, like their original Anglo-Saxon owners and improvers, are of composite origin. Authentic history of the breed began during the first half of the 18th century, though tradition represents these cattle as existing in the northern counties of England at a much earlier time. For several centuries preceding the formative period of the breed in the counties of Durham, Lincoln, York and Northumberland—early known as North Umbria—the kingdom had been successively conquered, ruled and plundered by the Romans, Saxons, Scandinavians and finally by the Normans, under William the Conqueror.

The strongest and best elements of these conflicting warring nationalities were blended and refined in the crucible of succeeding centuries into a race of people that has led the civilization of the world. So were the best elements of bovine development in North Umbria selected by intelligent husbandmen and refined by a long process of wise breeding and careful feeding into the modern breed of Shorthorn cattle. Among the early breeders who improved Shorthorns and gave them notoriety and popularity were Maynard, Masterman, Wetherell, Waistell, Whittaker, Stephenson, Robson, Barclay, Charge, Charles and Robert Colling, Thomas Bates and the Booths, Thomas, Richard and John. It was the Colling brothers, Thomas Bates and the Booths that gave Shorthorns their great popularity. This they accomplished by judicious breeding, careful feeding and extensive advertising by exhibiting their cattle throughout England.

The earliest importation of Shorthorns into the United States was in 1783, when a few were brought into Virginia. In 1790 an importation was landed in New York. The first to be taken direct to territory west of the Alleghany Mountains were imported by Col. Lewis Sanders in 1817 and later were known as "the Seventeens." They were landed in Baltimore and were driven across to Kentucky. All historians agree that they were choice cattle, though heated controversy and bitter prejudice afterward developed over their breeding. At the time of importation no pedigrees had been secured, as many breeders at that time had not learned the importance of careful records, this date being several years prior to the establishment of the English Herdbook. From 1820 to 1850 many importations were made by individuals and by companies and Shorthorns soon spread over the Atlantic seaboard and interior states and shortly afterward marched westward "with the star of empire."

The exhibition of prize winners has always been an effective means of advertising the merits of Shorthorns and since the days of Collings' "Durham Ox" and "The White Heifer that Traveled" the record of prize winners has been an interesting part of Shorthorn history. The story of show yard triumphs during various periods of the breed's development furnishes more than a passing interest to ardent students of Shorthorn history. Such accounts are readable whether they portray the victories of Duchess 34th, the dam of Eates' great sire, Duke of Northumberland (1940); Booths' twins, Bracelet and Necklace; Isabella Buckingham, Lady Fragrant, Duncan's Duke of Airdrie, Loudon Duchess 4th, Loudon Duke 6th, Fanny Forrester, Young Abbotsburn, Mary Abbotsburn 7th, Viscount of Anoka, Whitehall Sultan, Whitehall Marshal, Choice Goods, Ruberta, Fair Queen, Cumberland's Last, Dorothea 2d or Ringmaster. This is a very brief list of notable prize winners.

When Secretary Harding outlined a plan for this record of prize winners he suggested the short tabulated pedigree that has been used. As an advocate for many years of this form of pedigree I was pleased with the choice, as I firmly believe that many Shorthorn breeders have placed undue reliance on the female line and have failed to give proper emphasis to the importance of good sires. The plan as suggested to me was to include prize winners at the American Royal and the International shows from 1900 to 1918, at the Louisiana Purchase Exposition and at Iowa and Ohio State Fairs since 1910. As the Shorthorn show at the Minnesota State Fair was under the management of the American Shorthorn Breeders' Association from 1901 to 1909 I have included prizes awarded at Hamline during that period, also those at the Lewis and Clark Exposition in 1905 and the essential ones at the Panama-Pacific Exposition in 1915.

This involved a vast amount of detail—a patient plodding through the records of nineteen years. The awards at national shows were secured from records of the association, but those of state fairs required a persistent search through files of livestock journals, with the added labor of identifying animals where name numbers had been omitted in reports of shows. This may account for the omission of worthy prize winners at some of these fairs.

For fear this record would be too bulky it was agreed by the secretary and myself that at the earlier shows only prize winners above fifth place should be included, but in later ones a much longer list has been given. The preparation of this work required several months of painstaking labor, but it gave me a renewed acquaintance with many show yard worthies upon which I used to hang prize ribbons during my twelve years' service with the association. This record of prize winners is submitted with the hope it will be of interest and possibly of some use to the Shorthorn breeders of America.

A FANCIFUL SUGGESTION OF SHORTHORN ORIGIN

In 1903 the Central Shorthorn Breeders' Association held its annual meeting in Lincoln, Neb., and was welcomed to the city by an address of Hon. W. J. Bryan. On behalf of the association B. O. Cowan responded as follows: "I confess it is with no little diffidence that I rise to respond to the cordial and earnest words of the gentleman who has just addressed us. But I should be wanting in courtesy due the gentleman and recreant to the spirit that I am sure animates this gathering if I should fail to express our hearty appreciation of this cordial welcome to the city of Lincoln and the state of Nebraska. Both city and state have many possessions in material and intellectual development of which her citizens may well feel proud. The city has one resident whose eloquence has charmed vast audiences and another whose record has made him king of livestock auctioneers.

"I desire now to speak to you briefly about the breed of cattle that brought us together today. Authentic bovine historians, though differing somewhat as to exact dates, fix the origin of Shorthorns at one and a half to two centuries ago, while the claims of some advocates of a rival breed go back to a time antedating the flood. I come to you today, gentlemen, with a suggestion, which, if acceptable, will cause these advocates to take a seat far back in the hall of historical celebrities.

"When I was a schoolboy I found much pleasure in reading the mysteries of mythology and one of the stories that has often come back to me was about Jupiter, a god who was worshiped by the Romans, also by the Greeks, under the name of Zeus. Jupiter was a fellow of diversified tastes and when not engaged in hurling thunderbolts at his enemies he was not averse to flirting with the fair young goddesses who enlivened the Elysian retreats. This Jupiter had no right to do since his wife, Juno, like many wives in modern history, resented these flirtations. Among these goddesses Io, famed for her beauty and grace, was a favorite of Jupiter. On one occasion, when he was basking in her bewitching smiles, he was surprised by the approach of Juno and in order to avoid an embarrassing explanation he exercised his magic power by hastily surrounding himself and his love by a cloud, and when the indignant Juno peeped through a rift in the mist instead of beholding her hated rival she saw a beautiful white heifer into which Jupiter had transformed Io. This heifer, gentlemen, I claim as the ancestress of Shorthorns, and my argument in defense of the claim is that while other breeds of beef cattle have produced many beautiful heifers none will lay claim to a white heifer.

"While Juno apparently was baffled and denied the ground for a specific accusation, yet her wrath was not appeased, and it is evident that she knew a thing or two, so she importuned Jupiter to make her a present of this heifer. To this request he at first demurred, but, being unable to furnish a reasonable excuse for denying it, he finally consented. Upon obtaining possession of the beautiful heifer the revengeful Juno let loose on her tender back a vicious swarm of gadflies and thus gave the world the first exhibition of 'The White Heifer That Traveled.' To stockmen who know the nature of the gadfly it is needless to say that she broke all speed records.

"But, turning from the realm of fancy to that of fact, we can point with pride and satisfaction to the record of our favorite breed of cattle. More than a century of authentic history is replete with the victories of Shorthorns and splendid achievements of noted breeders who have made that history, illustrious come down to us as a benediction of encouragement."

GET OF SIRE RATINGS

In a few instances it will be noted that the lists of awards are incomplete, the reason being that full information was not obtainable from the records of published fair reports.

As the names of the dams of the winning entries in the Produce of Dam classes are rarely given in the reports, the record of these ratings has been omitted entirely.

It will be noted that the years 1914 and 1915 are not included, as both the American Royal and the International were called off those years on account of the quarantine due to the foot and mouth disease.

BARON BOOTH OF LANCASTER was imported in 1867 by Hon. M. H. Cochrane, Hillhurst, Quebec, and was in the shipment with the noted cow Rosedale. His breeding is shown by the above tabulation, but it may be of interest to state that his dam, Mary of Lancaster, was one of a set of triplets born at Sittyton and her grand sire, Matadore (11800), was half brother to imp. Mazurka. As a yearling Baron Booth of Lancaster was undefeated at Canadian shows, and was first at New York State Fair. In January, 1869, he was sold to J. H. Pickrell, Harrington, Ill. At that time he weighed 1,580, and twenty months later 2,400. A complete list of his prizes cannot now be given, but from 1869 to 1873 his record in American show yards was phenomenal, his winnings aggregating \$4,000. His merit as a sire is attested by the fact that he was never defeated in get of sire class. In 1870 he was shown at Canton, Ill., at the head of nineteen of his produce and won the \$500 offered for ten head or more by one sire.

LOUDON DUKE 6TH was sold at two years of age to J. G. Cowan, Oregon, Mo., for \$3,000. As a yearling he was a prize winner for Wm. Warfield, his breeder, at Kentucky and Ohio fairs. In his new home in the Missouri Valley he made a record as a prize winner and sire of prize winners that was not surpassed by any bull of his time. For three years he was shown at leading fairs and suffered but one defeat.

Few bulls exerted a more potent influence on Shorthorns in the United States than Duke of Richmond. He was bred by James Bruce, Scotland, and was imported in 1874 by Edward Iles, Springfield, Illinois, at a cost of \$800, but so great was his merit and so strong the demand for him that he was sold in 1875 for \$4,500 to James Kissinger, Clarksville, Mo. He was imported with Orange Blossom 18th that sold for \$3,500. Duke of Richmond was sold in 1876 to J. H. Potts & Son, in whose herd he became a very successful prize winner and a breeder of rare merit. Under his dominion the Potts herd was invincible in show yards for several years. No bull ever did as much to establish in America the fame of Scotch Shorthorns.

CUPBEARER was a bull of unusual merit. He represented the skill of three noted breeders, Duthie, Gordon and Marr, and among his ancestors was Matadore (11800), half brother to imp. Mazurka, for which R. A. Alexander paid \$3,050 in 1853. Cupbearer won in class at the Royal Northern and was reserve to the famous Field Marshal. He was imported in 1887 by Luther Adams and during the next two years his success in the show ring caused a genuine sensation which reached a climax when he met Young Abbotsburn at the Illinois State Fair of 1890. This trial of merit between these great bulls had been widely advertised and it is doubtful if a larger or more interested audience ever witnessed a similar contest. This was Cupbearer's first defeat.

The record of Young Abbotsburn is an interesting story. His immediate ancestors were cattle of remarkable merit, so it was no accident that he became a champion. He was bred by J. & W. E. Watt but developed by Alex Nowie, Paisley, Ont., but was shown only at local fairs. In 1890 he was purchased by Col. T. S. Moberly, Forest Grove, Ky., who was in search of a bull good enough to beat imp. Cupbearer, the reigning champion of the American show yard. These two notable bulls met first at the Illinois State Fair at Peoria and their contest for supremacy was truly a battle royal and it awoke a greater interest than had ever been witnessed in a similar contest. Young Abbotsburn won and so became champion of American show yards for three years.

ST. VALENTINE was a notable bull, both as a prize winner and breeder. As a sire he was particularly valuable to many herds, both in Canada and the United States. Space will not permit an extended comment on his produce but conspicuous examples are The Lad For Me 140614 and Ruberta, both notable as prize winners and breeders.

VISCOUNT OF ANOKA made a record in the show arena that was equaled by no bull of his time and has been surpassed by few of any period. He was successfully shown by Geo. Harding & Son and was sold, when two years old, to H. F. Brown, who showed him at the Trans-Mississippi Exposition in Omaha in 1898, and won the champion prize. He was then sold to T. J. Wornall, and during 1899 and 1900 he headed the herd that was a winner at the leading state fairs, being uniformly successful. Viscount of Anoka was later sold to Dr. Givens, Fayette, Mo., and then to Thos. F. Murry, McCredie, Mo. He proved a good breeder and many of his calves were prize winners.

Bloodlines: The foundation of this pedigree runs back through imp. Young Mary to early English herds, but the top crosses are of Scotch blood that has been potent in many American herds. Rosedale Violet 9th, granddam of Victor Abbot, was a very notable breeder, two of her sons being The Choice of All 215050 and Choice Goods Model 242589.

Bloodlines: Scotch with a little Bates, to which no one objects. With such a bull and such a phenomenal record as a breeder, even beyond the "third and fourth generations," it would be a bold man indeed who would object to the Bates that he carries. It would require a most well-informed student of Shorthorn history to name a bull that made a greater improvement in the breed; certainly none such have existed in modern times.

Prizes: At the International of 1903 he was 3d prize two-year-old and in 1904 he was 2d prize three-year-old at Hamline, Minn., the Louisiana Purchase Exposition and at the International. In 1905 he was 1st at Hamline, 1st at the American Royal and at the International.

She had some of the blood of the famous show bull, Earon Booth of Lancaster, and was quite similar in breeding to the bull imp. 	Red	10th Scottish Lady.....	Bluebeard 114514 Wm. Duthie
		O. H. Southworth	9th Scottish Lady J. V. Grigsby

Bloodlines: Scotch. In this breeding there is a faint trace of Bates blood, which in the third generation came through the 5th Duke of Hillhurst, but it is so small that the services of an expert mathematician would be needed to figure the percent. At the time when "Pedigree was in Flower" and most breeders were deeply concerned about "straights" and "pures," this cross caused some buyers to shy. Fortunately that foolishness is rapidly passing.

Prizes: Third junior calf at the American Royal in 1903.

WHITEHALL MARSHAL was the most successful prize winner of all the sons of Whitehall Sultan, yet at the International of 1903 he was 13th prize senior calf. His list of prizes is too long to be given in detail, so only a summary will be attempted for the shows at Hamline, Minn., the American Royal and the International for 1904 to 1908 inclusive. During these 5 years he won eleven 1st prizes, two 2ds and one 3d and was grand champion nine times. During this time he won many champion prizes at state fairs.

Bloodlines: This breeding is called "Scotch-topped Young Mary." It is mainly Scotch blood and that of Young Mary exceeding small. The sire was properly named "Hampton's Best," as he was the most prepotent son of Merry Hampton, and this famous grandson was well named "Hampton's Model," being the most remarkable of many good sons of Hampton's Best. When two years old he was sold for \$3,910 and in Argentina brought \$7,000.

Prizes: At the International in 1903 he was 1st junior calf and in 1st calf herd. In 1904 at the Louisiana Purchase Exposition he was 2d junior yearling and in 1st herd, junior champion and in 1st young herd at the American Royal and at the International was 1st in class and in 2d young herd.

Kelly in Chicago Whitehall King was an undeveloped yearling and sold to F. W. Harding for \$155. His development was wonderful and after winning senior championship at Chicago in 1908 he was sold for \$3,500 to L. V. Harkness.

King of Aberdeen and imp. Duke of Richmond, noted sires in the herd of J. H. Potts & Son, but the foundation of her pedigree is promiscuous breeding.

ROAN INGLEWOOD was 2d junior calf at the Louisiana Purchase Exposition in 1904 and was there sold for service in Texas. In the herds of that state he proved a good breeder.

This is one of several truly great bulls bred by E. S. Kelly, and one of the many excellent ones got by Whitehall Sultan. His show yard career was brief but brilliant and the excellence of his produce made it a distinct loss to his owners and to the breed when he died so young.

This was a very good bull, as his list of prizes fully attests. His sire was really an excellent breeder and it was a loss to Shorthorns in America and a mistake of his owner when the bull was sold for export to Argentina, because his produce were largely roan, with some whites. His dam, imp. Clara 58th, was dam of the noted show heifers, Claret and Clara Belle.

Prizes: First senior calf at International in 1903. Bloodlines: This bull has Scotch that is truly prepotent. On both sides of the pedigree the immediate as well as remote ancestors were great breeders. Choice Goods is so well known that no comment is necessary and Rosedale Violet 9th was among the best breeders of her day. Choice Goods Model was a good breeder in the herd of E. M. Hall.

Prizes: In 1905 he was 2d senior calf at Hamline, Minn., and at the American Royal he was 1st, junior champion, in 1st calf herd and 1st get of sire, and each of these prizes he duplicated at Lewis and Clark Exposition that same fall.

The ancestry of this bull would give warrant for good results. As a breeder he fulfilled this expectation, producing some good cattle in the Burnbrae herd. His show yard record was very brief and his success only moderate.

Prizes: In 1905 he was 3d senior calf at Hamline, Minn., and 5th at the International.

ROYAL KNIGHT has good breeding and exceptional merit on both sides of his pedigree. Both March Knight and his sire Red Knight were very impressive sires in the Meadowlawn herd and some of their heifers were champions at the International. On the other side there is also great distinction, as Dorothea, the granddam of Royal Knight, is dam of the famous Dorothea 2d.

Prizes: In 1905 he was 1st junior calf at Hamline, Minn., and at the International he was 2d and in 1st calf herd.

As Glenbrook Sultan's show yard career was brief his prizes do not indicate his real merit, but as a sire of prize winners he holds a high rank. He was one of the great sons of Whitehall Sultan. At two years of age he was sold at public sale in Chicago to Thos. Johnson for \$2,025 at a time when values ruled rather low.

Prizes: First senior calf at the International in 1905 and in 1908 he was 2d prize aged bull and headed 2d herd.

Bloodlines: This pedigree passes as a Scotch-topped Young Mary, but it is so thoroughly impregnated with good Scotch blood that to all practical purposes it is Scotch all through. The sire was imported from Scotland and the dam runs back through the famous Fannie Airdries of the Potts herd and has five crosses of Scotch bulls, the last one being imp. Duke of Richmond. Ingle Lad was a good bull and a choice breeder. He was 98½ percent Scotch and he furnishes the best argument I know against the folly of pedigree prejudice.

An item of interest concerning Ringmaster is that when he was small Mr. Leslie Smith instructed the herdsmen to castrate him, but Mr. Smith's small son Frank countermanded the order, and so Ringmaster became a champion bull instead of a prize winning steer.

Bloodlines: This breeding is of Scotch blood in all crosses except that in the third generation Snowflake had a cross of Eates. But since Snowflake sired the famous Ringmaster and was himself own brother to Snowbird, dam of the great sire Fair Acres Sultan 354154, it is the height of folly and an exhibition of extreme gall to criticize this breeding because of this faint trace of Bates.

Prizes: First junior yearling at the International in 1912.

Bloodlines: Scotch with a trace of Bates that came through Blocky 84800, great grandsire of Nonpareil Stamp. Snowbird is full sister to Snowflake 263207, sire of the famous Ringmaster. Fair Acres Sultan has proven a great sire in three herds. His show yard record was very short but that of his sons and daughters proves his worth as a sire. The only show I have examined in which he was exhibited was the International of 1912, at which he was 5th prize two-year-old.

MASTER RUBY was bought from W. A. Dryden for \$2,000 at a time when this was considered a liberal price for a good bull. In the herds of Herr Bros. & Reynolds he proved a good sire, and some of his produce in the herd of Reynolds Bros. won high honors at the International.

MASTER RUBY won 1st prize at the Wisconsin State Fair, but at the International in 1916 he was 7th aged bull.

Young Abbotsburn sired some excellent Shorthorns, but his greatest produce was Mary Abbotsburn 7th. In 1894 she won the yearling championship over all breeds at the Illinois State Fair and was then sold to Aaron Barber of New York for \$1,000, a high price at that time. She developed into a phenomenal cow, and for three or four years was the unquestioned queen of the American show yard. The blending of the Cruickshank and Bates blood here produced an animal that was well-nigh faultless.

Bloodlines: Scotch, with a trace of Bates in the paternal granddam so faint that it is difficult to measure. Snowbird made a fine record in the show ring and as a breeder her son Fair Acres Sultan 354154 proclaims her merit. She is full sister to Snowflake 263207, sire of the famous Ringmaster.

Prizes: In 1907 Snowbird was 1st junior calf at Hamline, Minn., 2d at the American Royal, 1st at the International and was champion female at Denver. Bloodlines: Scotch.

Imp. Rosewood 86th was probably the most valuable breeding cow ever owned in the Maxwalton herd, and when her large number of high-priced sons and grandsons are considered it seems rather remarkable that at one time she sold for the low price of \$350.

MAXWALTON ROSEWOOD seems to have been shown only when she was a calf and the only prize for her I have found was 11th at the American Royal in 1907, but as a breeder she will be remembered in Shorthorn history as the dam of Double Dale 337156.
